MANHOLE RISER MEASUREMENT FORM

To provide you with the most accurate, custom fit possible, we ask that you supply as much of the information requested on this form. The measurements are not needed if you can provide dimensioned drawings of your frame(s) and cover(s). Any information not provided will be considered as acceptance of J. Thomas, LTD. standard configurations and dimensioning.

Outside Diameter

Top of cover

Bottom of cover

Inside Diameter

Top of frame

Bottom of frame

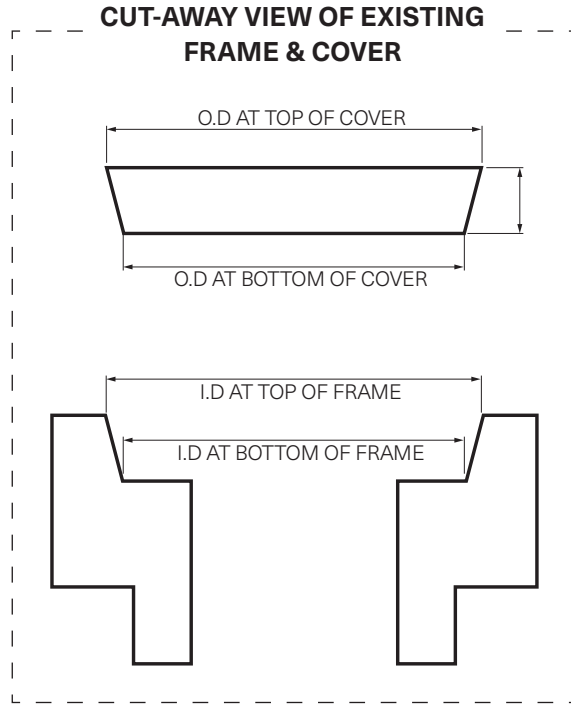

Cover Thickness

Rise

(Height to raise manhole cover)

Rise needs to be 1/4" greater than cover in order to be without skirt. Skirt adds a 3rd piece to the ring.

Quantity
